STANK X BAIT co.
2016 CATALOG

Stankx Bait Company is the brainchild of a select group of anglers. A group that was tired of the same old colors, the same old names, and the same old prices.

Here at Stankx, we strive to make a product that will outlast and out-fish other "big name baits". We do not spend money on advertising, to help keep our overhead down and pass this savings on to you. Our customers are our lifeline. You can expect personal one-on-one service for any of your plastic needs.

Our unique baits are produced with different formulas for each product line. From supple soft for superb action, to tough as nails for abuse in heavy cover.

Here at Stankx we do not want to fall into that everyday group of other bait companies. Therefore, our color schemes, names and our attitude are one of our own. Unlike other companies who raise their prices after finding a loyal following, we will not let this happen to you. As we continue to grow, we will always keep you, our customer, in mind. So please help our movement and spread the love and word of Stankx Bait Company.

Thankx from Stankx,
Travis Crosman – Owner

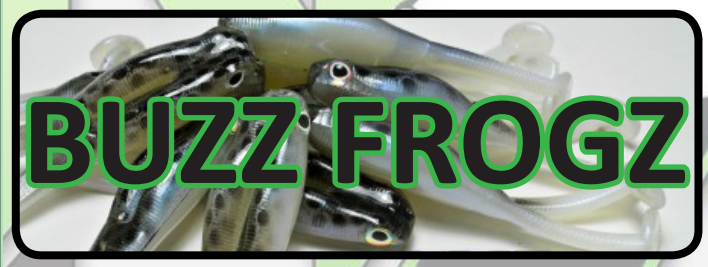
NXT LVL CUSTOMS

NXT LVL Customs is taking the custom lure game to the next level. Modeled by custom crankbait painters, a new airbrush style of soft plastics has been developed to appropriately 'match the hatch' and become a new favorite amongst bass fishermen and plastic bait aficionados.



- Specially formatted paint and clear dip system
- Paint will stay flexible and will not chip or flake off
- All baits come in plastic armor clam shell packaging

STICK BAITS

Our soft stickbaits have built the reputation of Stankx Bait Company. There is no wrong way to fish our versatile stickbaits. Injected with a combination of scented salts and TC's homebrew syrup, these baits tickle the taste buds of more bass.

WORMS

Stankx Bait Company manufactures a variety of specialty worms that cater to tournament and recreational bass fishing. Our line of worms are successful when fished with your rigs of choice, and can be fished any way desired. When order is placed, be sure to ask us about the special effects and modification we can add to the tail segments of each worm.
